DETAILED ACTION

Allowable Subject Matter

Claims 1, 2, 4 and 5 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Whyte et al. shows blocking a portion of energy of a signal in a power line comprising a magnetic core and connecting a capacitor across a magnetic core creating a resonant circuit but does not teach or suggest a second resonant circuit tuned to a different frequency to create a second frequency band blocking characteristic that is wider than the first frequency. Whyte et al. teaches a terminating impedance network comprising plural resonant LC devices but does not teach or suggest relative bandwidths where the second bandwidth would be wider than the first bandwidth, nor would it be obvious to combine the cited prior art thus the claims are allowable.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dean O. Takaoka whose telephone number is (571) 272-1772. The examiner can normally be reached on 8:30a - 5:00p Mon - Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Pascal can be reached on (571) 272-1769. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
